(b) the number of the schemes which have been completed and the number of flats constructed thereunder and the number of them alloted till date; and

(c) the target date for the completion of other self-financing schemes?

THE MINISTER OF URBAN DEVELOPMENT (SHRIMATI MOHSINA KIDWAI): (a) to (c) Since the inception of the Self-Financing Housing Registration Scheme in 1977, in all 7 schemes have so far been announced by the Delhi Development Authority for registration, including one scheme announced during the last three years i.e. in 1985. The total number of registrants under all the schemes, excluding the last scheme announced in 1985, was 51349. Against these 51349 registrants, 36388 registrants have been allocated the flats, out of which 14958 flats have been completed and allotted and 13924 flats have been taken possession of. Though the registration is done under specific schemes, neither construction nor allotment is specific to any particular scheme. Construction of flats in different localities is a continuous process and allotment depends upon the preferences given by registrants. As the registrants under different schemes accept the allotment of only such flats which satisfy their preference as per option given by them, and some registrants under a particular scheme do not accept the allotment of flats which do not fulfil their preference, there cannot be a target date for completion of allotment to all the registrants under a particular scheme.
